

## College Audition Policy McDaniel Music Studios

This College Audition Policy Is Here To Protect And Aid You In The Application Process. Please Make Note And Prepare.

### 1. All Music In Place...

All music and monologues for college auditions must be chosen and in place by February before auditions.

### 2. Know Your Deadlines...

All college audition requirements and deadlines for video submissions and school admission deadlines must be known by February before auditions. (The February of your JUNIOR year!)

### 3. NO SUMMER BREAK

If you have planned Summer vacations you must schedule your make up lessons. Summer is two months out from video recording requirements, giving students eight lessons to prepare.

Schools are VERY competitive. In some cases, these videos are screening to see if you will be considered for a live audition. They have to be great. Skipping lessons the Summer before these auditions, is not recommended.

### 4. Video Recording By October

ALL videos must be recorded in the month of October as most videos are due around Thanksgiving. We need plenty of time to record and make adjustments, if necessary, to give you the best chance at the schools of your choice.
